

Anti-Shatter Film (Blast Mitigation)

Installation Tools
Included

- 1. Backing Film**
(Must be removed before installation)
- 2. Adhesive Side**
(Spray with soapy water upon installation)

Technical Specifications:

Color	Clear
Thickness	200 Microns (8mil)
Weight	9.1 kg

Anti-Shatter Film provides protection from dangerous glass breakages in the event of a natural disaster or demolition by pirates.

Applications:
For use on interior side of glass windows or doors. When applied correctly, it forms an almost invisible protective coating on the glass surface.

- Product Features:**
- Make glass safe
 - Secure windows against burglars
 - Protect your glass against explosions
 - Constructed from a multi-lamination of micro-thin polyester
 - Scratch resistant coating to protect the film surface

Availability:

IMPA	Product Description	Thickness	Size	Unit
150821	Anti-Shatter Film	8mil	152cm x 15m	Roll

- Installation Instructions:**
- 1) Make sure glass panels are clean and free of dirt before installation.
 - 2) Cut the window film 10 mm over size in both dimensions accordingly to area to be installed on.
 - 3) Peel off the backing film, fill spray bottle bag with soapy water and spray some onto the adhesive side of window film.
 - 4) Spray some soapy water on the glass panel, and lay the adhesive side onto the glass panel.
 - 5) Use squeegee to squeeze out the air bubbles trapped under the film.
 - 6) Trim around the oversized edges using trimming knife provided.
 - 7) Make sure to clean off any excess water on the window/door gasket.

Note: This window film should only be applied to flat glass. It should never be applied to polycarbonate (plastic).
