**Electric driven powerful cleaning device designed to handle both wet and dry messes in industrial or commercial settings.**

Unlike standard vacuum cleaners, it can effectively remove liquids, dust, debris, and other materials, making it suitable for diverse cleaning tasks.

## Applications:

Capable of tackling various messes like oily bilge water, sanding dust, heavy debris, and fluid spills encountered on ships, shipyards, and offshore platforms. Also used in other wide range of environments, including manufacturing plants, construction sites, workshops, and even for general cleaning purposes in commercial spaces.

## Product Features:

- Durable construction designed for tough working conditions
- 60L container capacity
- Water-resistant, covered ON/OFF switches for added safety
- Functions as both dry vacuum (use dust bag when vacuuming fine dust) and wet vacuum (remove both the dust filter and dust bag)
- Connecting the hose to the air outlet functions as a powerful blower
- Equipped with a moving rack for easy mobility
