

Fire Blanket

Designed to extinguish either a small fire or to wrap around a person to protect them in hazardous areas. Made from 100% fiberglass and meets the EN-2869:1997 standard for cooking fire suppression.

The blanket enables the user to remove oxygen from a burning fire by smothering additional air that would continue to fuel the fire.

Applications:

It is typically applied in small fires (kitchen, camping, fireplace, car, office, boat, etc.) or to douse an individual's burning clothes.

Product Features:

- Easy to use
- No expiry date
- Compact size, easy to store and carry

Availability:

| IMPA | Product Description | Unit |
|--------|---------------------|------|
| 330950 | Fire Blanket | Pc |

Instructions For Use:

Simply pull down the fire blanket, spread the blanket wide and slowly cover the blanket to the fire. Turn off the stove or any heat source. Let the blanket suffocate the fire. Wait for the blanket to cool and dispose. Call the fire brigade. To extinguish a clothing fire, wrap the blanket around the victim, roll victim on the ground and seek medical attention.

Safety Handling Consideration:

Store in a dry place. Ensure that it is stored in a convenient, accessible location or in any fire-hazard area to provide instant protection when clothing catches fire.

Technical Specifications:

| | |
|------------------|---|
| Case Material | PVC |
| Blanket Material | Fiberglass with silicone rubber coating |
| Blanket Size | 1.8m x 1.2m |
