

# Black Electrical Insulation Matting (MD550)

## Comes with Test Certificate.

A 15kv tested 650v working voltage high-quality electrical rubber safety matting. Fully tested and stamped in accordance with BS921/1976 British Standard.

### Applications:

Specially created for electrical safety protection from switchboard and electrical apparatus.

### Product Features:

- Hard wearing
- Stamped with accordance to test standard
- Comes with fine ribbed surface for slip resistance

### Technical Specifications:

|                   |                              |
|-------------------|------------------------------|
| Color             | Black                        |
| Hardness          | 60 Shore A                   |
| Surface           | Cloth impression             |
| Bottom Side       | Fine ribbed                  |
| Tensile           | 5Mpa                         |
| Elongation        | 250%                         |
| Temperature Range | -20°C to +70°C               |
| Weight            | 12kg/m <sup>2</sup>          |
| Withstand Voltage | 15kV                         |
| Test Method       | BS921/1976 British Standard. |

### Availability:

| IMPA | Product Description                         | Thickness | Size     | Unit |
|------|---|-----------|----------|------|
| -    | Black Electrical Insulation Matting (MD550) | 9.5mm     | 1m x 10m | Roll |
