

Stage With Transverse Bearers

Wooden plank with small crosspiece of wood at each end of the stage.

Wooden plank with small crosspiece of wood at each end of the stage. With a proper setup and use of personnel safety equipment, the stage provides a stable and secure platform for workers to perform tasks at elevated heights. This contributes to safety by minimizing the risk of slips, trips, and falls.

Applications:
Stages are suspended from rope lanyards at each end, and are used to support men working over the ship's side or within the holds.

Availability:

IMPA	Product Description	Size	Unit
